

## Longevity Sports Center Camps Policies & FAQ

Precautionary measures to limit the exposure of COVID 19:

- Increased frequency and intensity of facility and equipment cleanings
- Mandatory hand washing for campers throughout the day
- Your child(ren's) temperature will be taken at drop off
- Staff will wear masks (based on feedback from parents we surveyed, masks are recommended but optional for campers)
- 1:9 staff-to-kid ratio (no groups larger than 10 people)

The safety of our campers and staff are always our top priority. If your child is sick or has been exposed to someone who is sick, please do not bring them to camp. We ask the same from our staff. We will do our best to make sure the kids have a great time while being safe and adapting to this new environment.

### **What should my child bring to camp?**

Campers should bring a water bottle, sack lunch, as well as any allergy or emergency medication (if needed). We strongly encourage campers to write their name on all of their belongings - including soccer balls, lunch boxes, etc. We do not recommend bringing tablets, toys, or other personal items.

### **What should my child wear?**

Campers should wear comfortable clothes to run and play in, as well as socks and athletic shoes. Shin guards or other equipment are not necessary. **NO OUTDOOR CLEATS** are allowed at Longevity Sports Center.

### **How about snacks and lunch?**

We provide campers with 1 snack per day (served in the afternoon). Full day campers need to bring a sack lunch.

### **What activities will my child be doing at camp?**

- Soccer
- Dodgeball
- Kickball
- Capture the Flag
- Camp games
- And more!

**Who is supervising my child?**

Our qualified and trained coaches are with the kids at all times - they love what they do and they are great with kids of all ages. Coach to camper ratio is 1:9.

**How are the campers divided into groups?**

We put kids into groups based on age, taking into consideration social and cognitive levels since they will be matched up to appropriate and interactive activities accordingly. If siblings are close in age but they are divided, they do have the option to join each other. However, we recommend that the children remain in their proper age groups so that they benefit the most from their time at camp.

**Camp Transfers?**

Camps are non-refundable, however, you may transfer your child to a different week of camp. No transfers or refunds will be issued the day your child is scheduled for camp.

**What if I am late for 4pm pickup?**

We do not staff coaches after 4pm. If you will be late to pick up your child, please call the facility and let us know immediately. There is a \$10 charge for late pickup. We will make sure your child is looked after, however, we do not run camp games after 4pm.

**Can I sign up my 4 year old who is about to turn 5?**

Yes, however, only with the permission of the Camp Director. If your child does not participate or is unable to stay for the entire camp, requiring an early pickup, you will not be eligible for a refund or credit.

**If my child has an allergy or needs to take medication, who do I contact?**

You should contact the Camp Director and inform the front desk upon check in of any medical conditions, medications or allergies. For food allergies, we distribute wristbands to kids with allergies to certain foods. If your child has taken medication before coming to camp, such as medications for ADHD, please notify the front desk upon check in. Please do not bring your child to camp if they have had a fever in the last 24 hours.
